ASSIGNMENT

Milprint, Inc., a corporation organized and existing under the laws of the State of Wisconsin and having a principal office and place of business at 3550 Moser Street, Oshkosh, Wisconsin 54901, also called the "Assignor," is the exclusive owner by previous assignment of the entire right, title and interest in, to and under United States Patent Application Number 10/689,478 (also called "the Application") and any patents which may be obtained from the Application. (See Exhibit A, which is incorporated in this Assignment by this reference.)

Bemis Company, Inc., a corporation organized and existing under the laws of the State of Missouri and having a principal office and place of business at One Neenah Center, Fourth Floor, Neenah, Wisconsin 54956, also called the "Assignee," is desirous of acquiring the entire right, title and interest in, to and under the Application and any patents which may be obtained from the Application, as more fully set forth below.

Therefore, to all whom it may concern, for and in consideration of the sum of one dollar (\$1.00) and other valuable and legally sufficient considerations, the receipt of which by the Assignor from the Assignee is acknowledged, the Assignor, having the full right to do so, has sold, assigned and transferred, and by these statements, does sell, assign and transfer to the Assignee, without any restrictions, reservations or limitations, the entire right, title and interest in and to the Application and any patents of the United States that may issue from the Application, as well as all continuations, continuations-in-part, divisions and reissues in the United States, and any patents from the Application in all countries foreign to the United States, for the Assignee to have and to hold for the sole and exclusive use and benefit of the Assignee, its successors and assigns to the full end of the term of all and any such patents.

The Assignor further sells, assigns and transfers to the Assignee the sole right (1) to file and prosecute in its name the Application and other applications from the Application under the patent laws of any country of the world, (2) to have patents granted on the Application and said other applications in its name to the full end of the term for which such patents may be granted, as fully and entirely as such patents would have been held by the Assignor had this Assignment not be made and (3) to enforce such patents with the right to sue for and receive for the Assignee's own use accrued profits or damages for any and all infringements of such patents, including but not limited to any past or current infringements, for which the Assignor waives any right to receive any portion of any profits or damages.

The Commissioner for the United States Patent Office is authorized and requested to issue any patents to the Assignee in accordance with the terms of this Assignment.

In testimony of the statements in this document, the Assignor has executed this document at Oshkosh, Wisconsin this 14th day of July 2009.
